Art Unit: 3653

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 14 through 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The use of the term "calibrated" throughout the claims is vague and not clearly understood. How is the opening calibrated? What constitutes a "calibrated" opening? The claims have been interpreted to merely have an opening when specified.

In claim 14 line 7, the function of the "thrust means" is not clearly understood. The function of such means in cooperation with the reciprocating movement of the deformable elastomer membrane has been clarified, but the specific function of the "thrust means" in this relationship is not clearly recited.

In claim 17 lines 3-4, the recitation of "a flexible membrane" appears to be a double inclusion since this recited membrane appears to be the same membrane recited as the deformable elastomer membrane in claim 1.

Claim 18 also appears to be redundant as the membrane has been previously recited in claim 1 (as related above for claim 17) and defined as an elastomeric material (also in claim 1).

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction

of the following is required: The specification fails to provide proper antecedent basis for the terminology "thrust means".

4. Claims 14 through 26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
